

Barrington Hall The Steel Coffee

Is just pure Mocha and Java prepared in a new way. The coffee berry is cut up (not ground) by knives of almost razor sharpness into small uniform particles. Thus it is not crushed, as by the old method of grinding, and the little oil cells remain unbroken. The essential oil (food product) cannot evaporate and is preserved indefinitely. This is one reason why a pound of Barrington Hall will make 15 to 20 cups more of full strength coffee than will any coffee ground the old way; why it excels all other coffee in flavor and why it will keep perfectly until used.

But the main thing about Barrington Hall Coffee is that it can be used without ill effect by those who find ordinary coffee injures them, because the yellow tannin-bearing skin and dust (the only injurious properties of coffee) are removed by the "steel-cut" process. A delicious coffee not a tasteless substitute.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. BODY FOUND IN RUINS

Young Man Meets Death in Burning Building.

POLICEMEN MAKE RESCUES

Three-Story Building Burns so Rapidly That Occupants Have But Little Time to Escape—Dosen Children Carried Out of Building.

CHICAGO, Nov. 8.—One person was burned to death, six others were severely hurt and several were rescued in a fire that destroyed a three-story building at 399 Fourteenth street, early today. Two policemen, who carried several children from the building, were slightly affected by the smoke.

The dead are:
 Abraham Gellett, 16 years old.
 Injured:
 Mrs. Dora Levin, 25 years old, jumped from the third-story window.
 Mrs. Day Benjamin, 27 years, jumped from second-story window.
 Fireman Frank McMahon, fell from ladder while attempting to rescue a woman.

Mrs. M. Caplin, burned about the face and overcome by smoke.

Benjamin Levi, burned about face and hands in rescuing Mrs. Caplin.

A. Ormaki, burned about face while rescuing several children.

Policemen Egan and Miller were overcome by smoke.

Gellett lived with Mrs. Benjamin. His body was found in the ruins after the fire had been extinguished.

The fire, the cause of which has not yet been learned, broke out on the first floor of the building and spread so rapidly that none of the occupants had an opportunity to escape. Most of the inmates of the second and third floors were carried down ladders. Mrs. Caplin gave birth to a child yesterday. She was being overcome by the smoke and was prevented from leaping to the street by Levi, who carried her down. He himself was severely injured.

Policemen Egan and Miller carried out over a dozen small children.

ITS SEVENTEENTH SESSION

OREGON STATE BAR ASSOCIATION PREPARING FOR IMPORTANT MEETING—ASTORIA WILL SEND DELEGATION, OF COURSE.

The Astoria bar is advised to be in readiness to send representatives to Portland week after next to the annual meeting of the Oregon State Bar Association, at which time there will be some very important business disposed of by the assembled lawyers.

The State association will hold its seventeenth annual meeting there on November 19th and 20th. It is the desire of the committee that the attorneys of the state be generally represented at this meeting and to that end have arranged that the circuit court of Multnomah county and the federal court shall take a recess for those two days. With the same end in view an excursion rate of one and one third times the regular single trip fare has been arranged for with the officials of the Astoria & Columbia River Railroad Company.

This rate applies to all attorneys attending the meeting, including their families, provided fifty (50) first-class single trip tickets are sold from points on the railroads in the state.

The mornings of the two days will be devoted to the business of the association, election of new members and election of officers for the ensuing year. The afternoon sessions will be devoted to address from prominent members of the bar of this state and of Washington and among the number there may be announced at this time Hon. J. H. East-erday, tax commissioner of the State of Washington; Hon. C. B. Alchison, railroad commissioner of the State of Oregon; and Hon. Oliver P. Morton, United States reclamation attorney. The meeting will terminate with a dollar dinner at the Commercial Club, Portland, at 6:30 P. M., November 20th.

MYSTERIOUS DEATH

CARL SIGFRIDSON AND LITTLE SON GEORGE, FIND DEATH TOGETHER IN THE COLUMBIA RIVER—SAD STORY.

One of the saddest cases of drowning recorded in this city for many a long year, developed yesterday morning early when earnest and kindly hands dragged from the mortal clutch of the Columbia, the bodies of Karl Sigfridson and his little son George.

This fisherman had left his home at 378 Twenty-ninth street, after the noon- ing of Thursday last, and had gone straight to his nets which were raked on one of the docks lying back of the Brewery and outside the railway trestle, and was accompanied by his five-year-old son, who wanted to help his father stretch the nets on the drying racks. They did not return to the home at night and the anxious mother waited patiently and vainly till such an hour as made every increasing fear fully warranted, when she summoned her neighbors and a searching party was soon instituted.

Every conceivable haunt and likely spot in the city was visited but no news was obtained at a late hour on Thursday night; whereupon, the party had recourse to the dragging irons that play so dreadful a part in the river and bay life of this port. And the whole section around the scene of their last known frequenting was gone over and over, until about 7 o'clock yesterday morning the water gave up its dead and father and son were found within a short distance of each other.

The fact that the father's coat was found on the dock where he had been at work, apparently flung off in a hurry, is the only tangible justification for the unhappy theory that the little boy had fallen into the river and the father had gone to his aid and sacrificed his own life with that of his child.

There is no known hypothesis for evil conclusions in relation to the

sad event. The man was known to be a careful, sober, industrious man, an excellent provider and a devoted father and husband; and the theory of the accident, the attempted rescue and dual death is accepted by all the friends of the family. The bodies were taken in charge by Coroner W. C. A. Pohl, who has dispensed with an inquest owing to the complete absence of all testimony and the natural assumption alluded to. Mr. Sigfridson leaves a widow and four other children.

The stricken family has the sympathy of the entire community in the sudden and dreadful blow that has fallen upon it.

No arrangements have been made as yet for the double funeral, but will be announced as soon as ascertained.
